

## ***FORTHEM Collective Short-Term Mobility***

### **Climate change and Environment in EU**

**Organising university:** University of Jyväskylä

**Location of the event:** University campus area in Jyväskylä

**Organisers:** The Student Union's Subcommittee for Development Cooperation & Subcommittee for Environmental Affairs

The Subcommittee for Development Cooperation promotes consciousness about global responsibility and sustainable development amongst the members of the Student Union and its aim is to prepare students for an active, informed and critical citizenship. The Subcommittee for Environmental Affairs works to increase the understanding of climate change, overconsumption and climate action amongst the members of the Student Union.

**Project description:** The Student Union's Subcommittee for Development Cooperation and the Subcommittee for Environmental Affairs jointly organizes a theme week where participants come together to discuss how climate change affects their everyday lives, develop ideas of what they can do in their respective cities/countries and what they can do collectively on the European level. *The subcommittees will help the participants to create various events connected to their topics (for example movie screenings, workshops, debates).*
