

## ***FORTHEM Collective Short-Term Mobility*** **Resilience of our society to natural and man-made migration**

**Organising university:** University of Jyväskylä

**Location of the event:** Campus of the University of Jyväskylä

**Organisers:** University of Jyväskylä, Prof. Tuula Tuhkanen, Department of Biology and Environmental Science, Department of Social Sciences and Philosophy, Finnish Red Cross Headquarter and Local Chapter of Central Finland.

**Course description:** This short course will support the participation of FORTHEM students and researchers in the dialogue and learning processes that are related to the challenges of man-made and natural phenomena to our society. The content of the course is multidisciplinary starting from the pressures to our present infrastructure (civil engineering) to the wellbeing and safety as well as human rights of our societies.

As the learning outcome, she/he understands the complexity of natural and man-made migration and their root causes. The working method is combination of expert lectures, demonstrations and group works dealing with different aspects of the resilience, existing cases, and emerging risks. The students can simulate how to be prepared to ad -hoc evaluation, preparation of self-support for 3 days survival and experience the conditions of refugee camp or temporary shelter. The demonstration material will be provided from Finnish Red Cross.

**Day by day programme:** 8.08.2022-12.08.2022

(to be confirmed, course is part of the Jyväskylä Summer School)

<b>Day and date</b>	<b>Morning</b>	<b>Afternoon</b>	<b>Evening</b>
