

FORTHEM Collective Short-Term Mobility **E3F: Escola d'Estiu Erasmus de Física**

Organising university: Universitat de València

Location of the event: Facultat de Física, Burjassot (València)

Organisers: Facultat de Física

Project description: The School of Physics consists of a series of talks at undergraduate level about different topics in advanced physics. In principle, next year the talks will be focused on Theoretical and Applied Physics. The talks/lectures are mainly given by young researchers. The idea is that students learn more about research or applied topics in Physics and share experiences with students from other universities. The lectures will be in English.

Day by day programme: 04.07.2022 – 08.07.2022

To be specified in Spring. Details about former E3Physics here: <https://go.uv.es/F4DQspl>

Day and date	Morning	Afternoon	Evening
Day 1	Welcome Lectures and debates	Lectures and debates (until 14:00)	Free
Day 2	Lectures and debates	Lectures and debates (until 14:00)	Free
Day 3	Lectures and debates	Lectures and debates (until 14:00)	Free
Day 4	Lectures and debates	Lectures and debates (until 18:00)	Social evening
Day 5	Lectures and debates Closing	Free	Free

Eligibility criteria and selection criteria specific to this project:

- Physics undergraduate students
- Marks
- Expression of scientific and cultural interest
- Other criteria (not necessary): knowledge of Catalan or Spanish.
