**Technologies meet Healthcare: Digital Leap for Improved
Patient Care and Public Health**

8 November 2021 | 15-18 EET | Virtual workshop

FIT FORTHEM and FORTHEM's [Resilience, Life Quality and Demographic Change Lab](#) warmly welcome academics, students and university-external stakeholders to join a virtual workshop to discuss the challenges in public health and patient journey.

In the workshop, participants get the chance to network with international colleagues and brainstorm digital tech solutions for the future.
